

REMEDIAL SITE ASSESSMENT DECISION - EPA REGION IV

Page 1 of 1

EPA ID: GAD980844591 Site Name: LAURELWOOD BURIAL SITE

State ID:

Alias Site Names: LAURELWOOD BURIAL SITE

City: ATLANTA

County or Parish: DEKALB

State: GA

Refer to Report Dated:

Report Type: PRELIMINARY ASSESSMENT 001

Report Developed by:

DECISION:

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)

☐ 1b. Site may qualify for action, but is deferred to:

10303868

☐ 2. Further Assessment Needed Under CERCLA:

2a. Priority: ☐ Higher ☐ Lower

2b. Other: (recommended action) NFRAP (No Further Remedial Action Planned)

DISCUSSION/RATIONALE:

File review conducted by Carolyn Callihan because the SI date (6/24/85) shows that the site is a NFRAP, but a PA date of 10/1/85 shows a Low priority for follow-up.

The archived file does not contain a PA document. An SI document dated "June 1985" appears to have some pages missing, but the date would coincide with the 6/24/85 date.

An HRS score was calculated and documented 12/10/86 showing a site migration score of zero. The site is being handled by Georgia EPD under HSRA (HSI # 10299). The HSI status shows that cleanup activities are being conducted for source materials, soil and groundwater.

Since the initial HRS score was zero, and the site is being cleaned up by Georgia EPD and source materials are being remediated, this site does not warrant further Superfund evaluation at this time. CPC 3/24/05
